**Contents**

**0 Area of validity .....4**  
0.1 Transport companies rail/bus/boat, local transport and transport associations .....5

## **0 Area of validity**

When there is no entry in the Line/City Network column, the SwissTravelPass is valid on the entire network apart from those lines listed separately. The lines that are listed separately have different validity requirements from the rest of the network.

Validity for travel on mountain railways refers to the feeder lines. There may be some variation on other lines, where locally available information applies.

The marching order also applies to transport companies that are not participating in the V520 area of validity.

The area of validity of the SwissTravelPass applies from 01.06.2026.

## 0.1 Transport companies rail/bus/boat, local transport and transport associations
